

Children's Chorus Presents Cinderella to Packed House

Over 90 children participated in the Friday production of Cinderella performed at the WHS Auditorium to a overflow audience.

The children's chorus performed Cinderella to an overflow audience at the Wasatch High Auditorium on Friday evening.

Cinderella was added to the long list of successful productions by the chorus that include Jungle Book, Sleeping Princess and Robin Hood.

The production of Cinderella was under the direction of Brad Thompson with Jana Wright playing the lead part Cinderella. The stepmother was played by Emily Hansen with Kenneth Berg doing the honors as Prince

Brian Neville, vice president of the National Center of Constitutional Studies formerly the Freeman Institute of Salt Lake City, which was created by Cleon Scouson, was the speaker at the Republican Women's Meeting which was held at the home of Marilyn Urry on Friday.

He said the national indebtedness is not only 1.5 trillion but an added 5 trillion which are unfunded expenses. Can you imagine how much 6.5 trillion are. That's 12 zeros. As you know, but I'm not sure that I do each time a zero is added going back from right to left it is multiplied by 10. Let's take 65 easy, right. Now add another zero. And it becomes 65x10, that's 6 hundred and 50. Add another 6,500 and it's multiplied again on to 65,000 or 65 thousand, 650,000 (6 hundred and 50 thousand), then 6,500,000 six million 500 thousand, 65 million then 650 million, then 6 billion, 500 millions and on to 6 trillion 500 billions equals 6.5 trillion dollars.

Mr. Neville advised "This is the best year to get out of debt. If you are paying on your home, sinch your belts and pay double on your principle. If you pay only \$30. more each month you can pay off a 30 year mortgage in 15 years."

Just think how much interest you could save in an extra 15 years not to mention the \$30 a month plus the full principle and interest you are now paying. It is the best money management on the market today.

In 1960 the U.S. produced 2,574,590,000 barrels of oil. Now times that by 10 then times that again. It staggers my imagination to think of our far, far out of control is a billion times a billion six and a half times.

It's easy to write 6.5 T or as buying a Toyota at \$995 as if it meant \$59.95.

It may be a poor comparison but if we produced 2½ times the oil that we do still would be short of the 6.5 trillion barrels of oil.

I don't think how much a barrel of oil is worth so I cannot figure from worth. Perhaps if for a year every barrel of oil went to pay for past wild spending might put us back in the black again. But who wants to.

Tuesday evening was an exciting evening at the Henry Kohler's as 20 young men and women and their leaders and Bishopric turned out for a house painting project. A much appreciated project and a hearty thanks to everyone who helped on it in anyway.

"Anyone who is in service to their fellow men are only in the service of their God."

A thought. Three mistakes of man. 1. The delusion that individual advancement is made by crushing others.

2. The tendency to worry about things that cannot be changed or corrected.

3. Insisting that a thing is impossible because we cannot do it.
